

## SOCIAL and PERSONAL

**MISS MARY JOHNSTON**, who occupied her cottage at Warm Springs during the summer months, has been making driving tour of the Virginia mountains since the advent of autumn.

Miss Johnston revisited Natural Bridge, made memorable by her in her first novel, "Prisoners of Hope," and enjoyed filling her mind afresh with its picturesque and beauty.

Miss Ellen Glasgow, who with her sister, Mrs. McCormick, has been abroad since the first of July, is expected to be in Richmond again by the first of October.

The publication in the near future of new novels by these distinguished Virginia authoresses is an event of literary interest, eagerly anticipated here.

**Enjoyable German.**  
The young men of Farmville entertained the many attractive young ladies of that vicinity last night at the most enjoyable German held there for some time. The dance was given at the armory, and Mr. B. M. Stras, Jr., a popular alumnus of Hampden-Sydney College, of Tazewell, Va., exercised his old skill and technique in manoeuvring the couples through some of the most intricate and beautiful of German figures.

Most excellent music was furnished by Mr. Kewenig, of Richmond, and light refreshments were served during the evening. The chaperons for the occasion were Mrs. W. P. Venable, Mr. and Mrs. V. P. Paulett, Mr. and Mrs. J. D. Morton, Dr. and Mrs. C. B. Crute and Mrs. E. S. Martin. Those dancing were Miss Carrie Kyle, with Mr. W. W. Vaughan; Miss Hattie Buggs, with Mr. W. C. Duval; Miss V. P. ## SHOT NEGRO AND BROKE HIS LEG

Caught in Act of Robbing Chicken House, With Big Bag for Fowls.

Supplied with a bag large enough to carry away every fowl on the place, Delaware Pleasants (colored) entered the chicken-house of Mrs. R. M. Hill near the National Cemetery, on the first of September, last night, and would probably have accomplished his purpose but for the fact that those living in Mrs. Hill's house were on the watch for him, and at the first glimpse of a chicken they went cautiously out, armed with all manner of weapons, to investigate. When a glimpse of Mrs. Hill opened the front door of the hen-house and looked in Delaware made a dash through the back door. Young Hill seeing his purpose, ran around the house and fired a couple of shots from a thirty-two-calibre revolver. To all appearances the negro got clear away, out when Sergeant Sewell and Officer Smith came up to investigate the matter they found the man lying in a field with a broken leg. The patrol was called and he was taken to the First Station and removed later to the City Home. It was found that his leg had been broken by a shot from the revolver. The broken bone was set by doctors at the home, and early this morning he was reported to be resting quietly.

Pleasants is a notorious chicken thief, and has served a term in the penitentiary for the same offense. He paid a visit to Mrs. Hill's place Wednesday night, but was frightened off, so last night they watched for him.

## TWO MORE WALKERS

Youngsters From Pittsburg Pass Through, En Route to Golden Gate.

Or the long tramp from Pittsburg to California by way of the Southern route, E. C. Ruth and William H. Hope passed through the city yesterday. They started on their journey August 26th, and are allowed three years in which to complete it. The route which they are taking covers from 8,000 to 14,000 miles. They are confident, however, of making the distance in much less time. Along the route they will deliver cards or messages at any distance, and guarantee to do it as quickly as any one else, mainly only the mode of locomotion known as "hitting the grit."

The fastest time made so far was on the eleven miles between Fronting and Cumberland, Md., which was done in one hour and fifty-eight minutes. The distance between Ashland and Richmond was covered in four hours, and this is considered "going some" in this part of the country. Frederickburg was visited, but the peripatetic detectives at the station, although they applied courteous enough to the Mayor of that town, he refused to emerge from his sanctum, so they left that city without receiving officially the "gaid hand."

## Mutiny on British Ship.

LONDON, September 17.—As a mark of their disapproval at being called out at night to repeat an evolution which had been improperly performed in the daytime, the crew of the British cruiser Gibraltair, while on the way to Australia, mutinied last night. The mutiny broke out on board. A punishment of all the customary privileges of the crew, including smoking and the use of the canteen, have been stopped until the culprits are discovered. The Gibraltair is at present at Albany, Western Australia, where she took part in the welcome to the American battleship fleet.

Of Scotch-Irish lineage, and a fighting man to his finger tips, the strategy of "Horse Shoe Bend" proved that he understood the art of war, but it was the battle of New Orleans that made him president.

## ..Manchester News..

Manchester Bureau, Times-Dispatch.

Manchester is to-day without a Superintendent of the Water Works. The Water Commissioners yesterday accepted the resignation of Superintendent J. S. Sharpe, and also that of Clerk of the Department Matthew Morton. The resignation of Mr. Sharpe took place immediately, while that of Mr. Morton will date from to-morrow evening.

This condition of affairs was brought about as the result of an exhaustive investigation of the affairs of the department. For several weeks the commissioners have been inquiring into rumors of delinquencies in the office of the superintendent, and this inquiry resulted in a disclosure of shortages amounting to nearly \$300.

The commissioners met last night and decided that another meeting would be held to-morrow night, at which time the vacancies will be filled.

The disclosures that were made came as a surprise to many of the friends of the two officials. It appears that for many months during the past two years small sums of money have been paid by users of water, but have never been credited on the books of the department. Witnesses were examined who showed receipts for money paid, and there was nothing on the books of the office to show that the city received the money. In several instances the superintendent declared that he had turned the money over to the clerk, but the latter denied that he had received it.

In one instance a prominent citizen, who had recently erected a building, and had had water connections made, and paid for it, was called upon by the commissioners, and stated that he had paid the money to the superintendent. The friends of both officials declare that they do not believe that there was any crime on the part of either of them, but that the shortage came as the result of loose and careless methods of conducting the city's business.

At the meeting last night the commissioners sought to fill the vacancy in the office of the superintendent by detaching Chief Engineer Reuben Whitaker to act temporarily, but the engineer declined to accept the place, and then the commissioners decided to meet to-morrow night and fill both places.

There are already several applicants for the place, among them being Messrs. C. W. Atkinson, Charles H. Melghan, George H. Jones and Mr. Ligon.

For the position of clerk but one name has been mentioned—that of former Councilman Aaron Sampson. Mr. Sampson is a progressive and popular young man, high in the councils of the department, and the church. Both Messrs. Sharpe and Morton ask their friends to withhold judgment until the matter has been more fully investigated. On Monday the grand jury will meet, and at that time Commonwealth's Attorney Page will present the cases.

While the bonds of the two officials have not been renewed since June, it was stated by a member of Council last night that the city would not notice "and my opinion is that the bondsmen will lose nothing," the Councilman said.

Elect City Engineer.  
It took the joint body of the Council and Mayor last night to elect a City Engineer to fill the position recently created by ordinance. Where

were four candidates, either one of whom it was conceded, would fill the place most acceptably. Each applicant filed letters of recommendation with his application, and all of them were from the highest source.

The names put in nomination were those of Messrs. A. M. H. Pettigrew, of Manchester; D. F. LaPrade, of Manchester; Henry R. Parker, of Richmond, and J. M. Lear, of Farmville.

On the first ballot Mr. LaPrade received fifteen votes and Mr. Pettigrew three. The former was therefore declared elected, and the meeting adjourned.

Mr. LaPrade is a well-known young citizen, with thirteen years' experience as a practical engineer. He is at present official surveyor of Chesterfield county, with headquarters in Manchester. He will resign his latter place before October 1st, and will enter upon his duties in Manchester on that date.

**Business Men to Meet.**  
President D. L. Toney said last night that he would call a meeting of the association for Monday night.

There were many important questions to come before the body," said Mr. Toney, "and it is essential that we get together as soon as possible. The secretary, Mr. C. O. Cowardin, is out of the city now, or we would have called the meeting sooner. He will be back by Monday, however, and I hope there will be a full attendance on that night."

At this meeting it is proposed to appoint a committee on consolidation to confer with a similar committee from the Richmond Chamber of Commerce, and the bridge question will receive some attention. There are other matters of moment that Mr. Toney wishes to bring before the association.

**OK for Lynchburg.**  
Miss Helen Morrisette, daughter of Mr. T. J. Morrisette, left yesterday for Lynchburg, where she goes to attend Randolph-Macon College. Miss Morrisette won the scholarship offered by

the college last session to pupils of the High School.  
The Council Committees on Street and Lands and Buildings met last night, but did nothing out of the routine. The Lands and Buildings Committee will meet to-night to consider applications from concerns which contemplate locating in this city.
